**INVENTS NEW LAMP.**

Said to Be Whiter and Cheaper Light Than Electric or Gas.

WASHINGTON. Patents have been granted by the Government to a lighting engineer by the name of Johnson, on a new lamp for burning ordinary kerosene oil. This lamp produces a vapor from the oil which makes a fine flame that incandescence a mantle, and thus creates a very strong, soft, pure white light. As it consumes only 6 per cent oil mixed with 94 per cent air, it is exceedingly economical. Said to be very simple to operate, odorless, noiseless, and dangerless.

V. M. Johnson, 31 N. Fifth Street, Portland, Ore. He also wants local distributors and has a very unique selling plan to offer agents. He is even offering to give one free to the first user in each locality who will help introduce this new light.
